

The Flip Clip line of instant storage products is designed to assist you in organizing your garage, attic, workshop, basement or any messy space... quickly and easily, no tools required.

### Step 1

Simply clip the Flip Clip® instant storage™ clamp to any exposed 2x in a wall or ceiling. The clamp's teeth grab hold instantly. It's that fast.

### Step 2

Next, the specialized storage bracketry attaches easily to your previously placed Flip Clip clamp using the Secure-Lock pin.

### Step 3

If necessary, the bracketry is then moved to the ready position. The assembly is now complete and ready to store your equipment.

### Step 4

The complete Flip Clip kit stores your equipment safely out of the way.

To move your Flip Clip kit when re-organization is required, simply remove your stored items, remove your accessories, unclip the Flip Clip clamp and start the process over.
