

Pull-Down Rod

The Pull-Down Rod is an excellent way to utilize the entire height of a closet. The pull down allows you to store hanging clothes up high, taking advantage of space that normally goes unused.

- ✓ Many have the misconception that the pull-down rod is only necessary or important for those with a handicap or closets with very tall ceilings
- ✓ It's also an excellent way to add precious hanging space while preserving important shelving and drawer space
- ✓ Innovative pull down rod adds hanging space to high, mid and low areas of closets
- ✓ Smooth "pull-down" operation with slow motion return
- ✓ 35lb. weight capacity per rod
